

## Contributed papers Vol. III-B: Genetics

### Table of Contents

Title	Authors	Page
<b>Oral presentations</b>		
Allometric Analysis of Body Measurements in Mink from Two Selection Lines	<i>Kristin Sørensen</i> <i>Wiebe J. Koops</i>	<b>65</b>
Effects of Genetic Selection for Domestic Behaviour on Hormonal Control of Reproduction in Silver Fox	<i>Ludmila V. Osadchuk</i>	<b>69</b>
Genetic Trends in Population of Pastel Fox	<i>Andrzej Jakubczak</i> <i>Dąbrowska, Jeżewska, Socha, Zięba</i>	<b>73</b>
Genetics of Kit Growth and Maternal Weight Changes during Lactation in Mink	<i>Bente Krogh Hansen</i> <i>P. Berg</i>	<b>74</b>
Penetration of Red Hairs in the Coat of Silver Foxes	<i>Dag Inge Våge</i> <i>E.B. Stavdal, H. Klungland</i>	<b>78</b>
Selection Scheme and Genetic Improvement of <i>Orylag</i> ® for Fur Production	<i>R.G. Thébault</i> <i>D. Allain, H. de Rochambeau, J. Vrillon</i>	<b>81</b>
The Influence of Heterozygosity for “Black crystal” Mutation on Cranial Size and Shape in Mink	<i>A. V. Kharlamova</i> <i>V.I. Faleev, O.V. Trapezov</i>	<b>87</b>
Some Anomalies in the Axial Skeleton of the Sable ( <i>Martes zibellina</i> L)	<i>Tatyana N. Petrina</i>	<b>88</b>
Practical Utilisation of Picture Digital Analysis for Estimation of Polar Fox Body Size	<i>Andrzej Jakubczak</i> <i>G. Jeżewska, T. Sakowski, G. Zięba</i>	<b>89</b>
Live Grading as a Tool in Pelsdyrkontrollen	<i>Kai-Rune Johannessen,</i> <i>E. Børsting, H. Kristiansen</i>	<b>90</b>
Selection for Increased Confidence in Foxes, and Possible Consequences for Production Economy	<i>Nina V. Nordrum,</i> <i>U. Brenøe, K-R. Johannessen, M. Bakken</i>	<b>98</b>
Confident Behaviour and Production Traits - Results from a Field Study of Foxes	<i>Sanna Nikula</i> <i>Smeds, Hietanen, Kenttämies Ojala</i>	<b>99</b>
What May Be the Consequences of Mink Selection for Aggressive and Domestic Behaviour ?	<i>O.V. Trapezov</i>	<b>103</b>
Genetic Change in Confidence and Some Production Traits in Blue Foxes Selected for Confident Behaviour	<i>Hilkka Kenttämies</i> <i>Kerstin Smeds</i>	<b>107</b>
<b>Posters</b>		
Characteristics of Selected Morphological and Chemical Blood Indices of Polish Ring Neck Fox	<i>Czerkas R.</i> <i>Frindt, Głogowski, Majewska, Winnicka, Kluciński</i>	<b>110</b>
Heritability of Motion Activity in Ferrets ( <i>M. putorius</i> ) under Open Field Conditions	<i>Ján Rafay</i>	<b>113</b>
Genetic Diversity of Farmed Finnish Silver Fox ( <i>Vulpes vulpes</i> )	<i>Minna Rintamäki</i> <i>Jaana Tähtinen</i>	<b>114</b>
Phylogenetic Aspects of Study on Variability of Alpha-Macroglobulins in the American Mink and Closely Related Species of the Mustelidae Family and Some Other Taxons	<i>M.A. Savina</i> <i>I.G. Gorelov, V.I. Yermolaev</i>	<b>120</b>
The Heritability and Correlation Coefficients of Selected Traits in Common Silver Foxes ( <i>Vulpes vulpes</i> L.)	<i>Stanislaw Socha</i> <i>G. Jeżewska, A. Gontarz,</i>	<b>123</b>
Effect of Behaviour on the Expression of Coat Colour Mutations in American Mink	<i>O.V. Trapezov</i>	<b>127</b>
Mink Domestication and Homologous Coat Colour	<i>O.V. Trapezov</i>	<b>134</b>
Behaviour and Expression of White Piebaldness in Mink	<i>O.V. Trapezov</i>	<b>138</b>
Selection of Mink for Behaviour Affects the Reproductive Function and Time of Eye Opening	<i>O.V. Trapezov</i>	<b>139</b>
Asymmetry in the Expression of White Piebaldness in Mink and its Relation to Reproductive Function.	<i>O.V. Trapezov</i>	<b>140</b>
