

Contributed papers Vol. IV - A: Nutrition

Table of Contents

Title	Authors	Page
Oral presentations		
Effect of Feed Extrusion Temperatures on Digestibility of Protein, Amino Acids and Starch in Mink	<i>Kari Ljøkjel</i> <i>Anders Skrede</i>	3
Effect of Dietary Protein Level and Quality on Growth Rate and Fur Parameters in Mink	<i>Mira Kerminen-Hakkio</i> <i>Dahlman, Niemelä, Jalava, Rekilä,</i> <i>Syrjälä-Qvist</i>	7
Effect of Feed Protein Level on Fur and Skin of the Blue Fox	<i>Tuula Dahlman</i> <i>Leena Blomstedt</i>	13
Effects of Dietary Protein and Carbohydrate Supply on Feed Consumption, Growth performance and Blood Parameters in Mink Dams during the Nursing Period	<i>Birthe M. Damgaard</i> <i>C. F. Børsting</i> <i>R. Fink</i>	17
¹⁴ CO ₂ Breath Test in Fed and Fasted Mink (<i>Mustela v.</i>) Using Methionine, Leucine and Valine as Substrates	<i>Christian F. Børsting</i> <i>Bent Riis</i>	22
Effects of Dietary Mineral Content on Mineral Metabolism and Performance of Growing Blue Foxes	<i>Jarmo Valaja</i> <i>Pölönen, Jalava, Perttilä, Niemelä</i>	28
Effect of Dietary Folic Acid Supplementation on Formate Metabolism in Blue Foxes (<i>Alopex lagopus</i>)	<i>Ipo Pölönen</i> <i>Valaja, Jalava, Perttilä, Sauna-Aho,</i> <i>Kariluoto</i>	32
Effects of Lactic Acid Fermentation and Heat Treatment of Wheat and Barley on Digestibility in Mink	<i>Anders Skrede</i> <i>Grete Skrede, Stefan Sahlström</i>	36
Detailed Study of Digestive Enzyme Activities in Fur-Bearing Animals during Postnatal Ontogeny	<i>V. M. Oleinik</i> <i>E. B. Svetchkina</i>	39
Thiamine Status in Farmed Mink	<i>Galina Petrova</i> <i>Tatyana Ilyina, Nikolay Tyutyunnik</i>	42
Metabolic Antagonisms in Mink: a Review	<i>J.E. Oldfield</i>	46
Preservation and Storage Stability of Poultry Silage Feedstuffs	<i>Kirsti Rouvinen-Watt,</i> <i>M. White, L. Longmire, M. Johnson</i>	50
Water Requirement of Farmed Foxes	<i>Randi Oppermann Moe</i> <i>Liv Lønne Dille, Morten Bakken</i>	54
Effect of Succinic Acid on Hypotrophic Kits of Farm Mink	<i>Alexei R. Unzhakov, Kondrashova,</i> <i>Kozhevnikova, Tyutyunnik, Meldo</i>	57
Measurement of Milk Production in Blue Fox Dams with Different Litter Size Using an Isotope Dilution Technique	<i>Øystein Ahlstrøm</i> <i>S. Wamberg, G. Sanson, A.-H. Tauson</i>	60
Posters		
Meat-and-bone Meals from Different Animal By-products as Protein Sources for Fur Animals	<i>Øystein Ahlstrøm</i> <i>A.Skrede, O.Heggset, O.Mikkelsen,Tangen</i>	63
Comparison of Feed Digestibility Determined <i>in vivo</i> in Nutria and <i>in vitro</i> by Laboratory Methods	<i>Bogusław Barabasz</i>	67
The Decrease of Food Losses in Feeding Nutria	<i>Oleg Yu. Bespyatykh, Igor A. Plotnikov</i>	72
Different Energy Distribution in the Feed for Mink Females in the Winter and Reproduction Period.	<i>Carsten Hejlesen</i> <i>Tove N Clausen</i>	74
Body Length and Pelt Length Relationship	<i>William L. Loeschke, Mark Michels</i>	78
Determination of Body Composition in Mink (<i>Mustela vison</i>) Kits Using Hydrogen Isotope Dilution and Direct Carcass Analysis	<i>Heather N. Layton</i> <i>K. Rouvinen-Watt. Sara J. Iverson</i>	82
Effects of a New Generation Feed Supplement on Some Performance Indices and Health State in Mink	<i>M. O. Lorek</i> <i>A. Gugonek, J. Szarek, D.Przeździecka</i>	86
Nutrient Excretion and Manure Management in the Mink Industry	<i>Cory W. Newell</i> <i>Rouvinen-Watt, D.Anderson, M. Johnson</i>	89
Effects of Different Fat Supplements on Liver Lipids and Fatty Acids and Growth of Mink	<i>Ipo Pölönen</i> <i>R. Käkelä, M. Miettinen, J. Asikainen</i>	92
Use of Culled Hens and Hen Silage in Growing-Furring Diets for Mink	<i>Kirsti Rouvinen-Watt</i> <i>White, Morse, Boudreau, Johnson</i>	95
Potato Industry Byproducts as Feed Ingredients for Mink during the Growing-Furring Period	<i>Kirsti Rouvinen-Watt</i> <i>MB. White, M. A. Johnson</i>	99
